Office Action Summary

Art Unit: 1714

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, 20-26 and 40-42, drawn to a method of forming an admixture of a solvent, an additive and a polymer, classified in class 252, subclass 500+.
- II. Claims 17-19, drawn to a method of forming an admixture of polyaniline base, N-methyl pyrrolidinone and a plasticizer, classified in class 528, subclass 492+.
- III. Claims 27-39 and 43-45, drawn to a method of forming an admixture of a particular solvent, a particular additive and a polymer classified in class 524 and 528, subclass various.

Inventions I and II (and III) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because said solvent and additive can be other compound. The subcombination has separate utility such as a conductive coating composition.

Claim 1 generic to a plurality of disclosed patentably distinct species comprising a plasticizer and antiplasticizer as claimed in the claims 25 and 26. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Art Unit: 1714

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Morris (answering machine) on February 28, 2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H. Yoon whose telephone number is (703) 308-2389. The examiner can normally be reached on Mon-Thr from 8:00 to 5:30.
